

# Artist's Document: Change Or Danger

By Grace Magnant

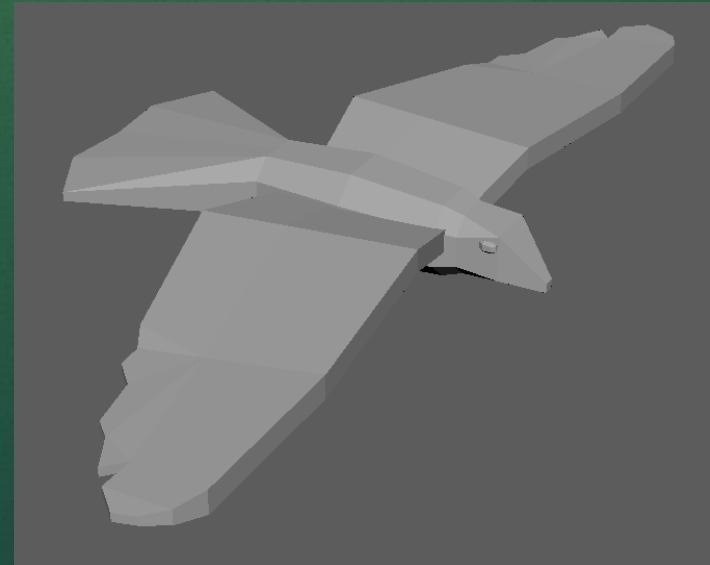

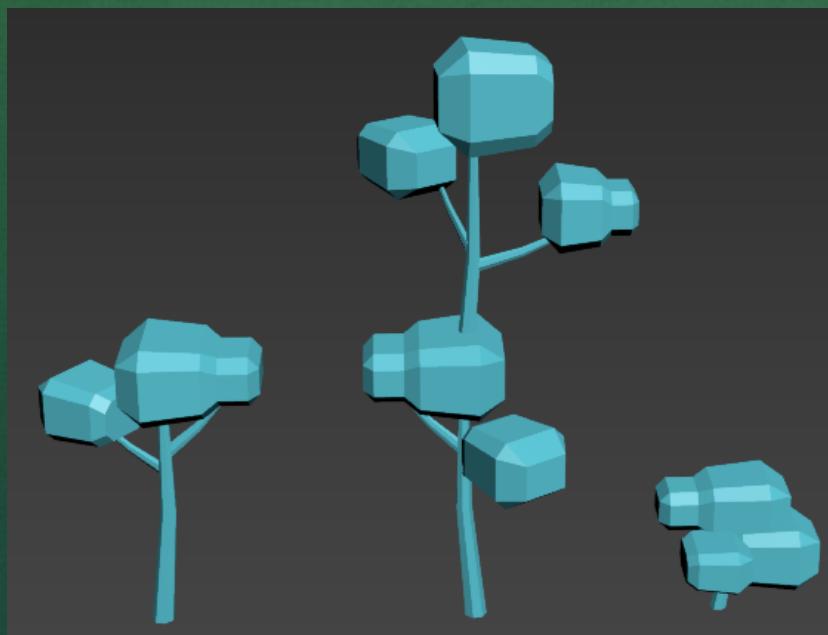

# Visual Direction

- All assets, both character and environment, will follow a low poly style with minimal textures. This will allow the chameleon to be detailed enough to be able to be seen but also low poly enough to blend in with the background when the right color.

# Benefits of the Style

- By keeping the style low poly it will allow the artist to make multiple assets and props in a short amount of time, to allow the player to have a full environment to explore.

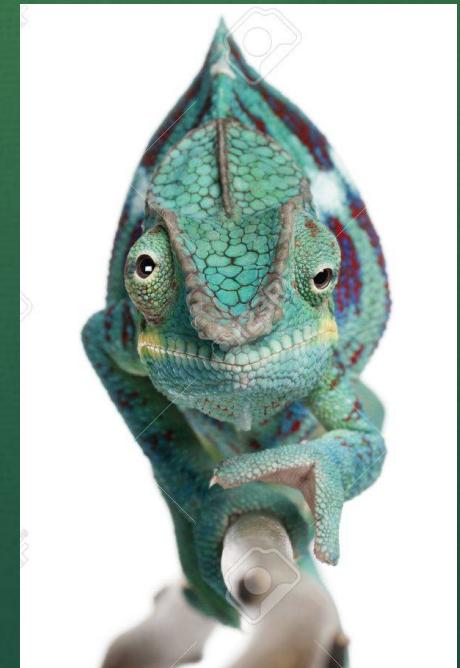

# Color Palette

- The colors should be bright enough for the game to be interesting, but also be different enough from each other that changing from one color to the other will be obvious to the bird.

# Character Reference (part 1)

- Type of chameleon: Panther Chameleon

# Character Reference (part 2)

- Type of Bird: African Cuckoo Hawk

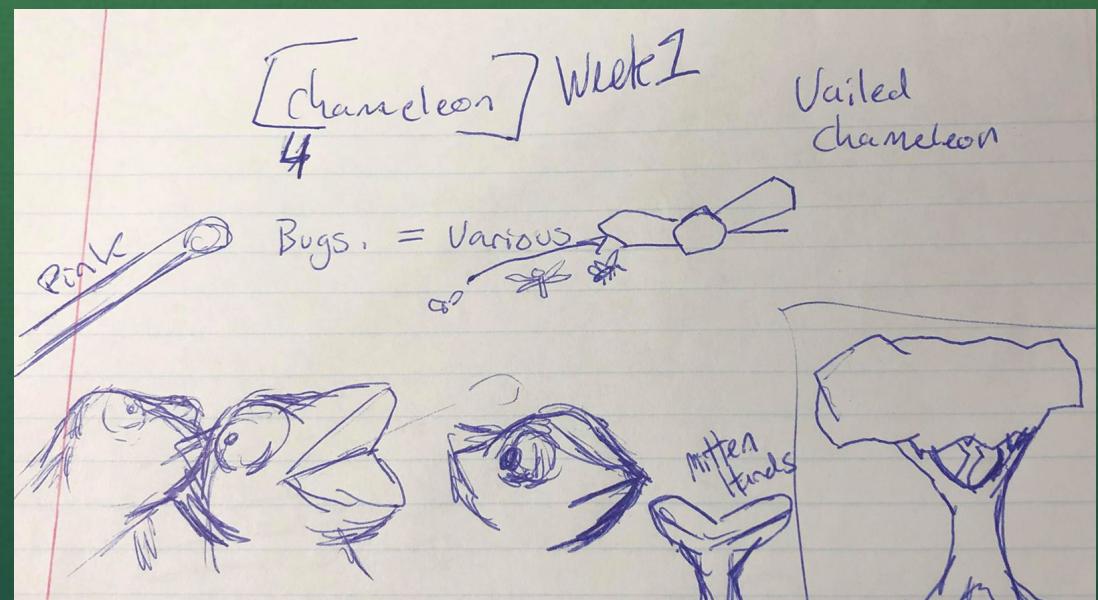

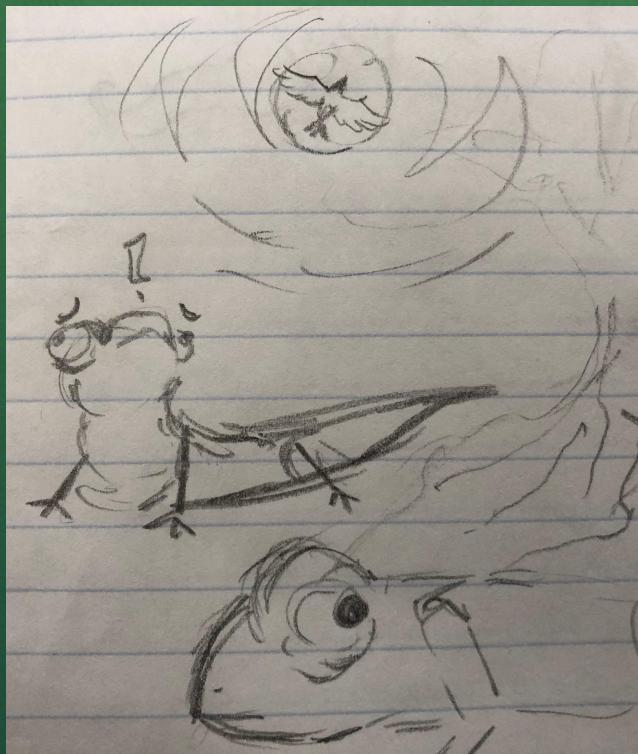

# Environment Reference

- Based loosely on Porto Rican and African jungles.

# Sketches
